

RV-CNR INSTALLATION SHEET

The Redvision external corner bracket provides elegant mounting for the RV Dome Series range. To facilitate mounting a dome to the corner of a building the RV-WALL bracket is required in conjunction with the RV-CNR bracket.

Fixings required to mount the corner bracket will depend upon the fixing surface. It is important to use adequate quality fixings to safely support the complete dome assembly.

Attach the RV-WALL bracket securely to the RV-CNR bracket using the supplied M6 fixings.

Contents
